MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence
Executive Director
Deputy Director for Intelligence

FROM:
Director of Global Issues

STAT

SUBJECT: Conference on the Commercial Aircraft Industry

1. Action: Consent to give the keynote address for an Agency-sponsored conference on the Commercial Aircraft Industry and to sign letters of invitation to select leaders of the US aircraft industry. The conference is scheduled for 11 June 1986 at the J.W. Marriott Hotel in Washington, D.C. Based on your response and schedule, we also plan to ask the DDCI and DDI to participate in the conference program.

2. Background: The health of the US aircraft industry is vital to the future of the United States because the industry provides a strong positive trade balance and contributes to advanced technologies necessary for military preparedness. In recent years successful foreign aircraft and aircraft-related programs eroded both the profitability and the technology edge traditionally enjoyed by the US aircraft industry. The purpose of this conference is to clarify the issues facing the US aircraft industry and their implications for US national security interests. In addition to CEOs and leading technical specialists from major aerospace companies, we plan to invite senior members of the Departments of Commerce and Defense concerned with aerospace matters. A tentative conference agenda and a proposed attendee list are attached.
